The Business Department at John Adams serves two groups of students: those who follow a planned sequence of study in stenography, bookkeeping, general office procedures, or merchandising; those who choose electives from the department offerings to contribute to their general education. The combination of personal typewriting and notehand into a course designed for election and use by those on a college bound program has become increasingly popular.

Up to date equipment and teaching techniques enable each student to develop his learning and earning potentials. Participation in the co-operative work experience programs by those students with vocational objectives, enables them to enter the offices or stores of our community as better prepared employees. Miss Annajane Puterbaugh is head of the department.

Foreign Languages—The Way to

The language department, under the guidance of Mrs. Gwendolyn Gadomski, offers various opportunities for students in the field of foreign languages. There are four year programs in German, Spanish, Latin, and French. There is also a special fifth year course available in French for those who have studied it in grade school. These students go to summer school and receive credit for first year French. Besides gaining knowledge of a foreign language, students have the opportunity to learn about the people of other countries and their way of life. Students learn from classroom experience and from the language laboratory. Pupils working individually in the lab are able to improve their abilities by hearing their voices on tape. Gaining a wide vocabulary, and learning to read and speak fluently are goals of the language department.

In addition to the school programs for languages, there are outside opportunities to study in a foreign country. These programs have included French, Spanish, and German students in the past, and this year a study abroad program is being initiated in Latin.

Varied opportunities for study, along with modern books and teaching methods, help to make the language department at John Adams one of high quality.

Adventures Through

Much importance is placed on the mastery of the English language. Today, more than ever, one's future may well depend upon his ability to communicate his ideas clearly and easily. In the English classes each student has the opportunity to improve this ability to express himself through work in such areas as vocabulary, grammar, composition, and class discussion.

The English Department offered two new methods of study this year. One innovation, linguistics, is the study of the structure of our language. The classes which study linguistics are continued through the sophomore and junior years. This new teaching method is valuable as it involves inductive thinking, a process in which the student figures out the basic elements of a sentence.

The other method introduced was block or core teaching, a combination of United States History and English III courses. This correlation between history and English brings out the common topics covered in the two subjects. Block teaching is taught in a two hour schedule to provide a better setting and to allow the teacher to get to know his students better. In the two hour class, it is possible to stress certain areas and to allow time for discussions. This system has proved successful and valuable and it will probably be continued next year.

Initiated last year, the team teaching program again proved successful. Two or three teachers combine classes in order to share teaching responsibilities. This method is beneficial because teachers may instruct their own specialties and the students are exposed to varied instruction.

In addition to new teaching methods, the seventeen English teachers, under the direction of department head, Mr. Gerald Kline, have continuously sought to instill a knowledge and appreciation of the skills of the English language and the beauty of literature in every student.

Students Receive Preparation for

What are the plans for next year: a career, marriage, college? The Home Economics Department offers courses in Foods, Clothing, and Family Living that will help any student now and in the future.

In Foods classes students learn to prepare and serve food attractively, but even more important they learn why foods act and react as they do and the "why" of basic nutrition.

In Clothing courses the girls learn how to make the things that high school students like to wear. School clothes, sportswear, and formals are all possibilities if wardrobe planning shows a need for them. In advanced clothing the girls make tailored suits or coats and use exciting new fabrics such as knits, stretch fabrics, vinyls, and bonded lace.

Family Living gives senior boys and girls a new understanding of their roles in the family. In this year long course, students learn about dating, marriage, the beginning family and how it changes with the growth of a new generation. Different points of view from classmates and guest speakers make discussion stimulating and fun.

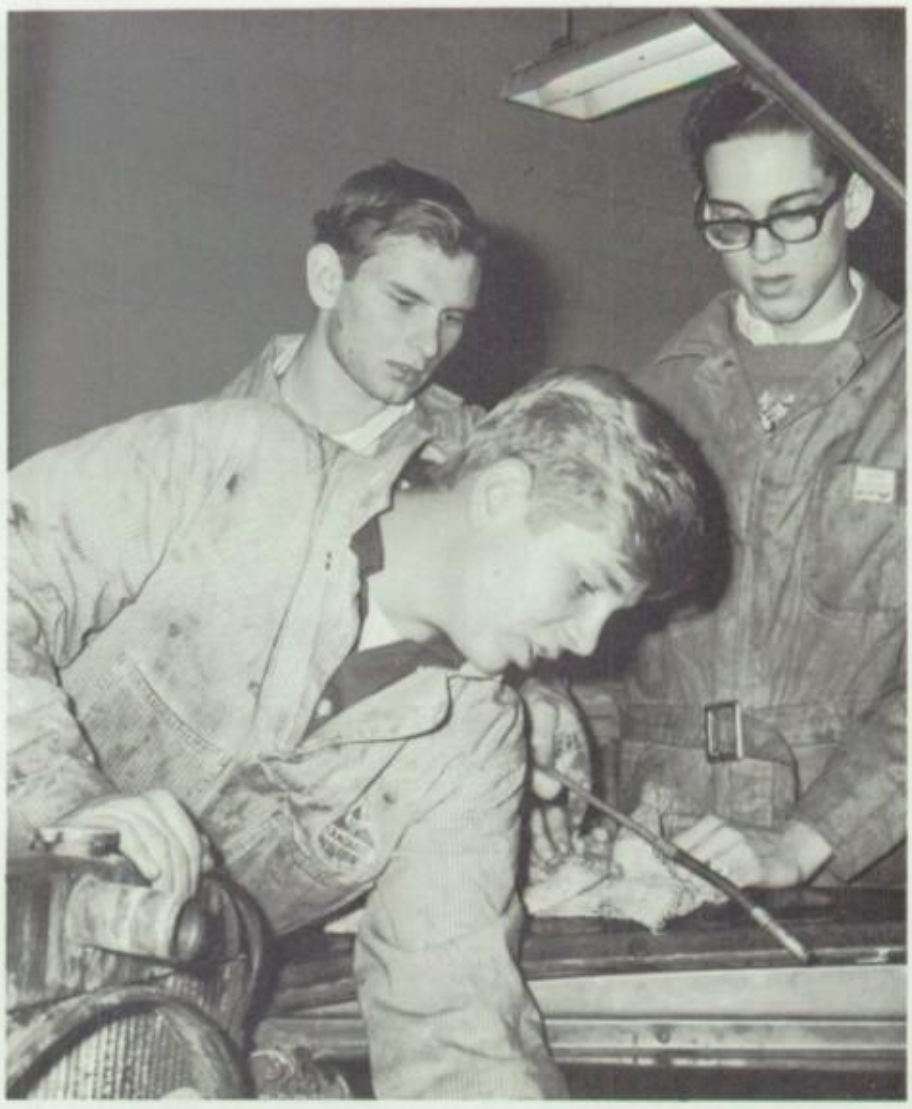
the Future Through Experience

As machines have become a necessity in everyday life, the Industrial Arts Department encourages both boys and also girls, if they desire it, to learn the basic skills which are needed to promote a good understanding of machines and all types of shop work.

Students in automotive classes work with power mechanics and various types of engines. Class members examine cars for any necessary adjustments and make minor repairs. The Automotive Department includes two areas. Students in the Vocational I course study the workings and make up of the engines; and those students who take Vocational II are concerned with the rest of the automobile.

Another aspect of the Industrial Arts Department is drafting. In Drafting I, students learn the fundamentals of drawing, lettering, and dimensional work. Detailed work in these areas are studied in Drafting II.

Classes in machine shop, wood shop, electronics, and printing are also provided at Adams. This wide variety of classes enables a student to select a subject which is of greatest interest to him. Each course is designed to prepare students for work in the world of machinery and engineering and enables them to produce useful items which are the result of instruction and skill.



Larry Poorman, Ron Michaelis, and James Austin work together to get an old car in running condition.

Mathematics—A language of

A portion of the high school curriculum is devoted to the subjects of mathematics. Adams students are offered an extensive program in this field. Mathematics may be considered a language of science; however, the knowledge gained by student participation and interest, may also be a device used in the development of clear thinking. By attempts to gauge the mathematics program to the ability of individual students, the teachers are able to maintain the interest of their pupils on all levels.

In mathematics as a language of science, scientific expression is dependent upon an understanding of terms and a knowledge of solutions in the mathematical field. Two years of algebra are fundamental in solving chemical equations. Likewise, in a physics course, a four year mathematics program is often necessary in order to set up problems and to write lab reports. Without an understanding of mathematical principles, these scientific courses would be impossible.

Following the changing trends in education, modern teaching methods and textbooks are made use of in most courses of mathematics. By demonstrations and nightly assignments, the John Adams Math Department, headed by Mr. Volney Weir, strives to impart the reasoning of the mathematician to every student. Each math course, be it algebra, geometry, or advanced calculus, develops the use of logic. By the result of such reasoning through mathematics, all students will be able to be dependent upon clear thinking to help them in the future.

Students with a particular ability in the field of mathematics are able to participate in the State Mathematics Contest. Each year John Adams is well represented in this competition. Adams offers the extra-curricular club, Mu Alpha Theta, to those math students who also have an added interest in this area.

Science—the Road to

In this rapidly moving world, science has become very important in the field of mechanized progress. Headed by Mr. Paul Reber, the Science Department strives to further knowledge and interest in the various fields of sciences. Excellent laboratory equipment and facilities enable students to accomplish this goal.

Six science courses are offered in the curriculum at John Adams. As a requirement for high school graduation, students study in health classes the basic principles of the body, mind, and spirit. The biochemical approach is introduced in the first year of biology. This new approach, which has been used extensively, called B.S.C.S.—Biological Sciences Curriculum Study—describes life from its most primitive form—the single cell. In Biology II, students increase their knowledge of this phase of science by more individual work both in the arboretum and the laboratory. Included in the Biology II course is the study of cat anatomy, field biology, and fresh water organisms. Chemistry, usually a prerequisite for Physics, gives students an opportunity to study and experiment with the composition of matter and the changes in its make up. Physics, the science which deals with matter and energy and their transformations, is taught as a preparation for college. Physical Science is a one year course of general scientific principles.

The John Adams Science Department realizes its function in the preparation of students for the modern era of today.

Culture Is Emphasized

Through various phases of art and music, students demonstrate creativity and skill by either design or sound.

To allow students to develop creativity to their fullest potential and to help them to gain a sensitive response to art form is the goal of the Art Department. Through stimulation of one's imagination, his knowledge and his emotions, an awareness of subject matter possibilities is encouraged. Under the direction of Mr. Robert Seeley, the Art Department provides experiences which extend and add depth to the students' concepts of art. Projects of the art classes include designing of posters which are used for various school events.

The Music Department provides valuable addition to regular school activities. The Glee Club, supervised by Mr. Robert Hoover and Mrs. Leininger, sings for events both in and out of school. Besides the traditional Vespers program, they have sung for teachers' meetings and for local television programs. Under the direction of Mr. Gerald Lewis, the orchestra provides various programs for the school and also participates in state musical contests. With Mr. Withrow and Mr. Shafer as their directors, the band serves the school and community by playing at athletic activities and by giving other programs throughout the year.

Social Studies—A Link Between

As the future leaders of society, it is not only important, but also necessary, to take an active interest in the activities of the world and in its people. To gain an education in this area, however, history must be studied. In this manner, the past is used as a link with the present and future. Through the Social Studies Department, students become aware of current affairs and gain the knowledge needed to be a good citizen in the world.

Two new methods of teaching were added to the Social Studies Department this year. The idea of team teaching, which has been successfully used in the English Department, was introduced. Although only some of the United States History classes were involved in this program this year, next year almost all of the United States History students will participate in the team teaching. Core teaching was another new teaching method this year. By this method the courses of study in English III and United States History were combined to show their co-relationship.

The Social Studies Department offers many areas of study, including Introduction to Social Studies, United States History, World History, American Government, Sociology, International Relations, and Economics.

Physical Education Improves

"A Healthy Mind is a Healthy Body"

The physical education department works to achieve the latter part of this Roman goal. With two gymnasiums, a tumbling room, an apparatus room, and a swimming pool, Adams is well equipped for a good physical education program. Some of the activities available are basketball, volleyball, tumbling, and working with the apparatus equipment. Adams is especially well equipped in this last phase of gymnastics, having two trampolines, vaulting equipment, and a large number of mats. All students in gym classes have at least six weeks of swimming in the pool. Swimming skills and concepts of water safety are taught by the physical education teachers and pool aids. Besides the inside facilities, gym classes are able to take advantage of the fields behind the school, the track, the park, and the tennis courts during good weather. Activities outdoors include speedball, football, soccer, softball, track events, and tennis. The girls' gym classes also spend some time during the year studying modern dance and free exercise. Gym courses are designed to stimulate the student and they prove to be a necessary addition to the academic courses. Because the requirements in physical education are so strenuous, John Adams ranks high among Indiana high schools.

Sally Wilkinson and Deb Savarese show basic swimming skills.

Mr. A. E. Goldsberry--1900—1966

Mr. Alonzo E. Goldsberry was a member of the Adams faculty for 24 years as a social studies teacher and was head of the department for 8 years. He was a very devoted man not only to his teaching career, but also as a church member, sportsman, and family member. Mr. Goldsberry served as our Adams football coach during the years 1943 to 1945, and he felt his experiences as a coach were very beneficial. Mr. Goldsberry loved his profession and once said that he liked teaching and his students so well that he could teach for nothing and still enjoy it. He inspired his students to want to learn and he felt it was his responsibility to help them, as young men and women, get a good education.

School Spirit Increases Under

The largest and one of the most active clubs at Adams is the Booster Club. Its projects include decorating goal posts, the selling of buttons and ribbons, and sponsoring bus trips.

In each of its activities the Booster Club strives to create a sincere and enthusiastic school spirit. Under the leadership of Mr. William Przybysz, and the club's president, Keith Dickey, the Booster Club encourages the student body to attend all school sponsored activities.

Active Girls Participate in Sports

The point of no return.

Under the leadership of Mrs. Shirley Miller, the Girls Sports Club enabled more Adams girls to take part in athletic events than in previous years. Through the year, members participated in such sports as bowling, synchronized swimming, apparatus work, volleyball, basketball, tennis and modern dance. As a new inter-school activity, the girls swim meets provided a challenge for Adams female swimmers. The club experienced a very successful year.

National Honor Society Recognizes Leaders

Officers: Left to right: J. Daugherty, vice-president; B. Dickey, president; Mr. Peczkowski, sponsor; J. Crane, secretary; P. Bickel, treasurer.

Membership in the National Honor Society is limited to 15% of the senior class. The club strives to create an enthusiasm for scholarship, to stimulate a desire to render service, to promote worthy leadership, and to encourage the development of character in students of John Adams High School. On the basis of these four precepts, scholarship, leadership, service, and character, students are inducted into the Society.

Under the leadership of Mr. Robert Peczkowski, the Society conducts an Honor Breakfast for straight A students. The sweatshirt sale is another annual project.

Founded to further student interest, knowledge, and participation in the field of dramatics, the Drama Club experienced another successful year. Under the leadership of a new sponsor, Mr. Robert Smith, the club was very active.

The year began with rehearsals for their fall play, "Good Morning Miss Dove". This proved to be a success, not only because of a good performance by the cast, but also because of hard working committees on properties, costumes, lights and publicity.

In February the club presented another play in the round, Tennessee Williams work, "The Glass Menagerie". Rehearsals began shortly afterward for "Oedipus Rex".

With the Glee Club, the spring production "Oklahoma" was presented. The hard working club experienced a truly successful year.

One of the busiest and most important organizations at John Adams is the Student Council. Besides serving as the school's student government, it sponsors numerous worthwhile projects throughout the year. The aims of this year's council were to represent the students in more and better ways, and to set higher goals and then work harder to reach these goals.

The Student Council's projects for the 1966-1967 year included: The Freshman Show-ya Round, Back-to-School Assembly, the Bookcover Sale, Leadership Clinic, Student Council Week, and the Little 500. The results of January's Share-Their-Fare Drive show that the highest total in Adam's history, $1867.00, was collected. However, the project which seemed to be most outstanding was the successful clothing drive. 5,000 pounds of clothing were collected and sent to needy families of Appalachia.

President Andy Nickle termed this year's Student Council as "An action council and a council that has been concerned with the interests of the students".

A motion passes at the Council meeting.

Andy Nickle helps stack the bags of clothes.

Eagle Ethics

Eagle Ethics, a committee of Student Council, constantly attempts to maintain the ethical standards of the John Adams student body. The Eagle Ethics code hangs in each room as a constant reminder to the students as to the importance of a set of values. Some of the projects of the committee are explaining the ethics to freshman social studies classes, making clock signs to hang in the rooms, and honoring the janitorial and kitchen staff. Eagle Ethics also sponsors two assemblies a year. Last fall Mr. Edwin Ehlers spoke on the need of ethics in athletics. The Brotherhood Week Assembly featured Mr. Jesse Dickinson.

AFS

Walk together, talk together, O ye
Peoples of the earth
Then and only then shall ye
have peace.

Throughout the world, American Field Service Organizations follow this motto. A committee of Student Council, AFS attempts to promote an understanding among peoples of all nations by providing an opportunity for student exchange. An assembly in January introduced our Swiss exchange student, Roland Perrenoud, to the student body. Money for this worthwhile program is obtained by the annual Share-Their-Fare drive, sponsored by Student Council .

Screen Club

Formed to assist teachers in the use of audio visual equipment, the Adams Screen Club is a service to the school. Mr. Lawrence Martin, advisor, helps the members learn to operate the schools equipment, which includes tape recorders, and motion picture, slide, and film projectors. All departments may use the interesting and valuable teaching aids available with the knowledge of Screen Club members.

Club Trains Students for Business Careers

Officers: **SITTING:** A. McLean, secretary-treasurer; R. Powell, president. **STANDING:** C. Hacker, 1st vice-president; D. Hahn, 2nd vice-president.

The purpose of the Adams Business Club is to promote interest, service and instruction in the business fields. Each business class selects one member as a representative to serve on the board. These directors plan and organize programs for the entire club. Miss Annajane Puterbaugh, sponsor, helps develop activities that will enable the members to become more familiar with the world of business.

Growth Is Y-Teens Purpose

A nationally affiliated club, the Y-Teens revolves around the principal of growth—both individually and in association with people of all races, religions, and nationalities. The club also serves the school in many ways. Special projects include the decoration of the Christmas tree in the entrance hall, coffee for the faculty and staff members, a May tea for mothers of the Y-Teens members, and working on an annual all-city spring dance.

Under the guidance of Mrs. Emma Schultz, the Y-Teens club has achieved its major purpose, that of growth in personality and friendships.

Album Staff Captures Pride

Neil Gilbert, assistant editor and business manager; Mr. George Carroll, sponsor; Kathy Huff, editor-in-chief.

The Album—a publication which took time and thought. Inspired by the pride of Adams, the staff worked long and hard to put this feeling in pictures and words. Ideas were presented, lay-outs drawn, and photographs taken. Copy was written, revised, re-written, and typed. Advertisements were contracted, and circulation increased. Tensions grew as deadlines approached, but joy and satisfaction was evident as those deadlines were met. Finally, the last pages were completed, and the product was distributed. The 1967 Album was given to the student body. The book no longer belonged to the staff—it belonged to the students.

Christy Korpal, circulation manager, has her yearbook signed by Mr. Carroll.

Tower Staff Works Hard

The masthead of the best selling weekly newspaper of 1966-67 at Adams read: John Adams Tower. The Tower performed a necessary service in publishing school events and in recognizing the achievements of Adams students. The letters to the editor column provided a place for students to voice opinions and four corners and other features gave glimpses of the lighter side of school. Scores and details of athletic contests along with precision views of each of the sports were found on page four. The most important function of the Tower this year, however, was to provide a lasting, detailed record of the events that involved the students and faculty of John Adams.

Red Cross Youth Serves Adams Well

Under the supervision of Miss Mary Giannuzzi, the Red Cross Youth strived to achieve their goals. These three goals are to form a better relationship among the student body, to learn and practice leadership, and to aid the community and school in any way possible. In order to achieve these purposes the Red Cross Youth engaged in many worthwhile service projects. These projects include visiting various hospitals, and sponsoring parties at the Children's Hospital. Also, the club ran a concession booth at the basketball games.

Future Nurses Prepare for Further Study

Sponsored by Mrs. Dorothy Chamberlin, the Future Nurses of America is one club that is both a service club to the school and also a service club to the community. In order to bring the career of nursing closer to its members, the club sponsors various speakers, films, and trips. Future Nurses also headed the campaign against TB with the sale of Christmas seals in the homerooms.

Science Interests Members of Mu

Mu Beta, or the Medical Biology Club, gives students an insight into medicine and its related fields. Mr. John Shanley, the club's sponsor, helps organize the programs which include field trips, films, and lectures by specialists in the medical field.

This year the club gave an opportunity for several members to gain practical experience in medicine by working in Memorial Hospital Emergency Room.

The varied activities of this science club prepare the members for their future medical professions.

Beta and Waltons

The John Adams Waltons, sponsored by Mr. Ernest Litweiler, is an organization open to all students interested in conserving our natural resources. Affiliated with the Izaak Walton League, the club performs many useful services for the community. Some of the club's activities include bird feeding at the Walton grounds, replanting trees, and serving dinner at the Walton League Fish Fries. Throughout the year many interesting people present programs to the club. These programs are specially devised to create an understanding of conservation.

Their Hearts

The John Adams Glee Clubs, under the direction of Mr. Robert Hoover and Mrs. Janet Leiniger had a very successful year. The Concert Choir began early to prepare numbers for the Back-to-School Assembly, and the North Central Festival. The Vespers, early in December gave the members of all four Glee Clubs a chance to present an inspiring Christmas program to the entire community. Spring kept the groups busy with a concert and music for Baccalaureate and Commencement.

Mr. Lewis directs rehearsal for fall concert.

The Adams Orchestra, under the direction of Mr. Gerald Lewis, has performed at many concerts and assemblies this year. The 63 piece orchestra performed in the fall and spring concerts and the McKinley-Edison benefit concert. Music for an orchestra assembly, National Honor Society Induction, and the spring musical "Oklahoma" was also provided by the orchestra.

Members played in the North Central Orchestra and the entire group performed at the State Contest. Representing the J.A. Orchestra in the city, district and state contests were several individual soloists ensembles. Cooperating with the other musical organizations the Orchestra participated in the music departments fund raising pizza sale.

and First Conference Title Since 1956

Behind one of the most potent offenses in the state and a defense that was tough in the clutch, the high-flying Eagles of 1966 swept past nine opponents in the school's first undefeated and untied season. From the first tough opener against St. Joe to the last sweet victory over Michigan City, the Eagles muscled their way to the NIC title on the running of fullback Tommie Walls and the passing of captain Doug MacGregor. The sparkling offense amassed 331 points, or an average of nearly forty points per game, with Walls accounting for 154 of those points. MacGregor hit an excellent 58% of his passes, of which nine were for touchdowns. Senior end John Kaiser was MacGregor's prime target, hauling down 26 passes, with six of those going for scores. One of the most important of those was a 47-yard strike at Kiwanis field in La Porte, where that heart-stopping 14—13 squeaker took place. Besides the hard fought 13—6 opener, no opponent posed a serious threat to Adams' highly ranked gridders, who won by such overwhelming scores as 56—14, 54—19, 41—14, and 71—14. The sole shutout of the season was registered against Riley, 28—0.

Tommie Walls was named Most Valuable Player for the second consecutive year. The elusive fullback gained over 1400 yards, for an 11.9 average, and was top scorer in the NIC and area with 25 touchdowns. Halfback George Wilkins, who was injured midway through the season, picked up over 600 yards for an 11.0 average, and scored five times. The team as a whole ran up a total yardage gain of 3463, with 873 accounted for by passing. Defensive standouts were Linebackers Scott Campbell and Dave Robinson. Campbell lead the team in tackles and assists, and ran back two interceptions for touchdowns. Robinson was second in the tackle department, and was elected to be the 1967 team captain. Other team standouts were tackle Tom Colip (all-conference), guard Tom Kruyer, center Tom Koehler, end Phil Williford, backs Herman Humes and Mickey Spainhower.

City, Sectional Wins Cap Best Season

Captain Cubie Jones discusses the meet with Coach Dale Gibson.

The 1966 Eagle Cross Country team, under the direction of varsity coach Dale Gibson, produced the best harrier season in the school's twenty-six year history. Out of seventeen dual meets, the Adams runners won sixteen, including victories over all city schools. Led by senior captain Cubie Jones and star runner Jack Driver, they won the city meet for the fifth consecutive year. In the sectional meet, the Eagle harriers downed all their opponents to win by a comfortable margin, with junior Jack Driver placing third. The entire team was qualified for the regional meet held at La Porte, and finished a respectable sixth. The only dual meet loss was suffered at the hands of one of the finest cross-country teams in the state, Elkart, who has not lost in dual meet competition for several years. Other Eagle cross-country standouts were junior Kevin Walters, senior Phil Thompson, senior Ed McNutty, junior Bill Manuzak, junior Phil Hamilton, senior Horace Russell, and sophomore Bobbie Whitlock.

Netters Complete Winning Season

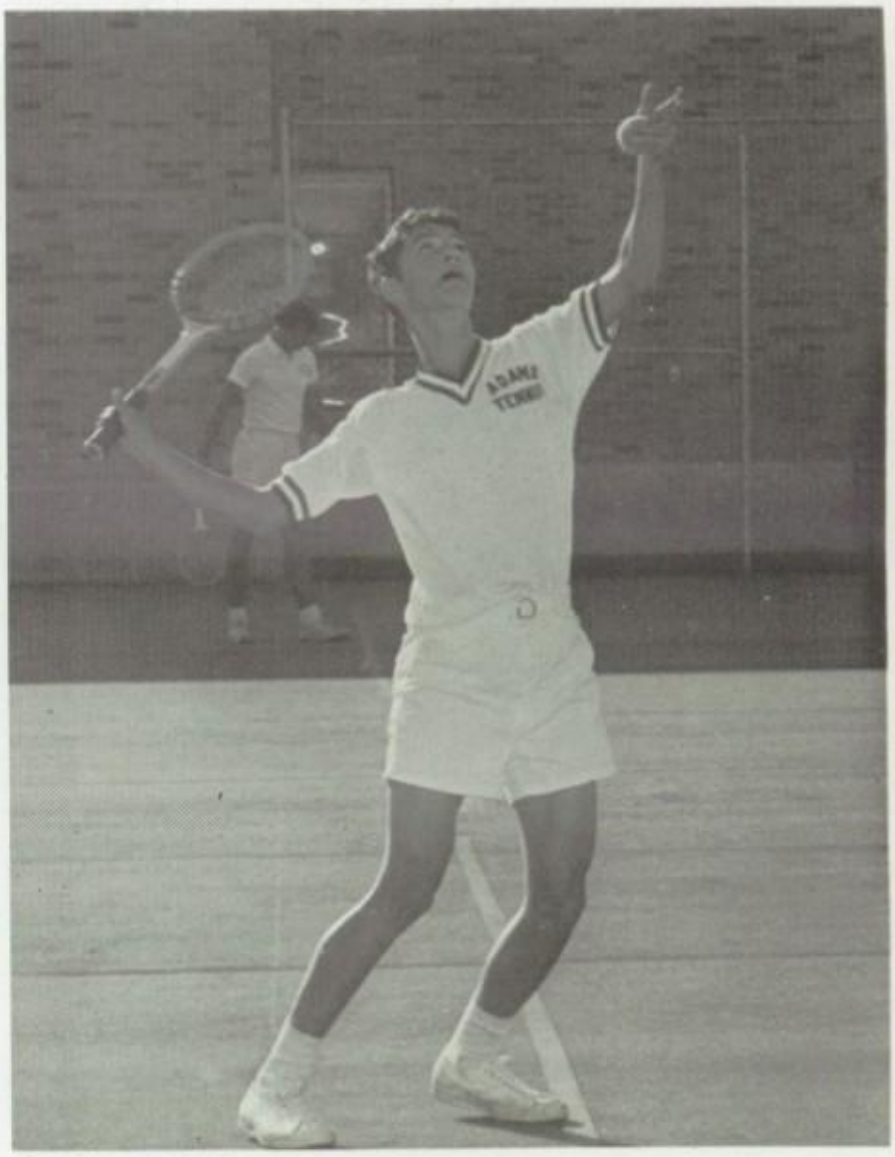
VARSITY TENNIS: B. Dickey, M. True, J. Norris, D. Beaty, K. Delahanty.

Coach Eldon Fretz completed a second successful year as varsity tennis coach. His netters compiled a respectable 5—4 overall record, and a 4—4 conference mark. The most outstanding fact of this season's effort was that they defeated all South Bend city schools in tennis competition.

This year's captain was senior Bruce Dickey, who also had an outstanding individual record. Kevin Delahanty, the only other senior on the squad, was voted the Monogram Club's most valuable player award for his excellent play throughout the season.

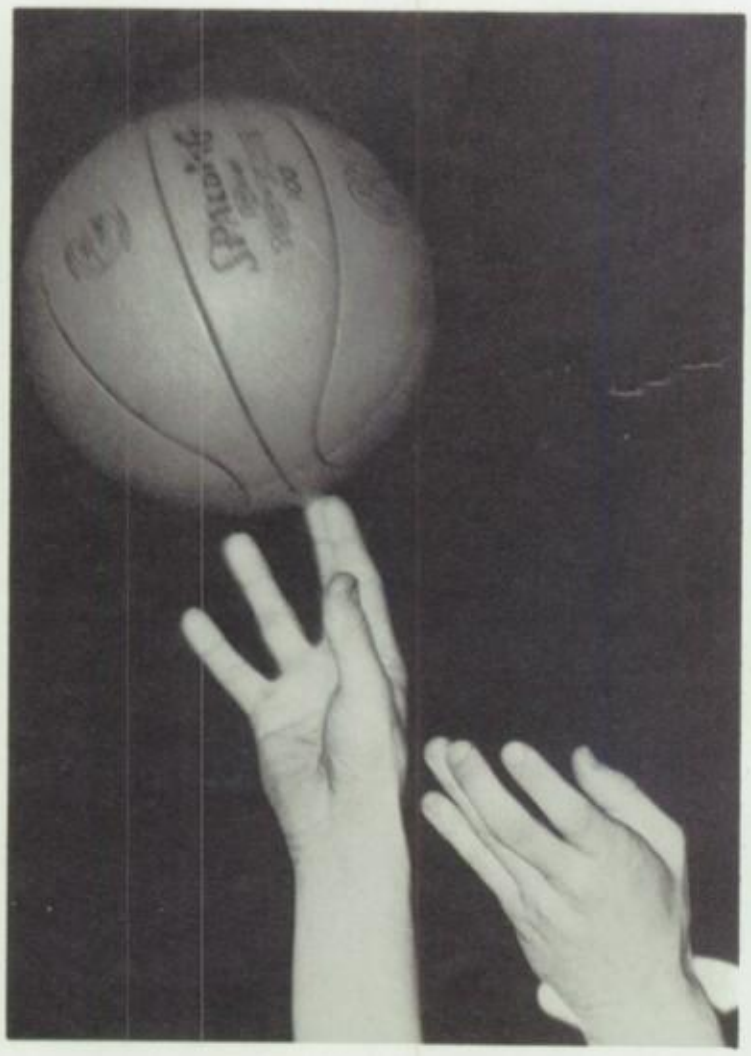
Next year's squad is loaded with bright prospects. Three of the five lettermen of the 1966 squad will be returning, all being juniors. They are second man Mike True, third man John Norris, and fourth man Dave Beaty. Many B-team members will be vying for those two vacant varsity spots next year.

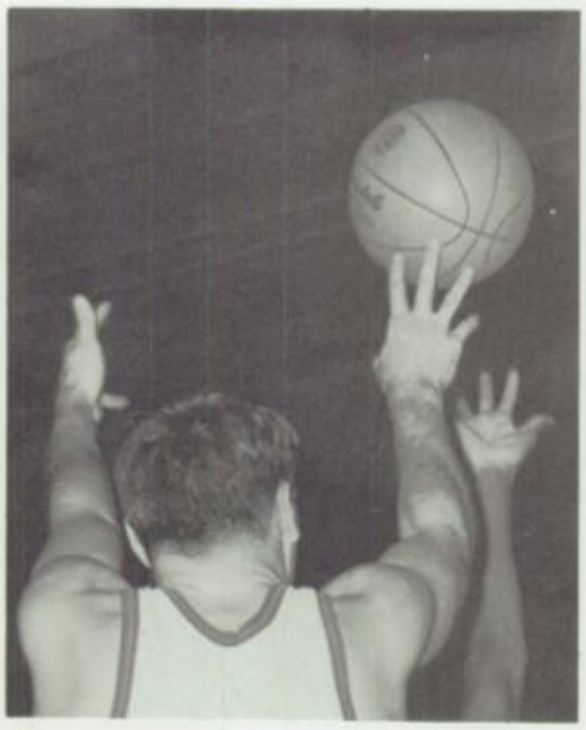
Mr. Fretz's career record as tennis coach now stands at 10—7.



Mike True serves during Central match.

It's All Over!





Experienced Eagles Capture

Experience paid off for second year coach Don Barnbrook as his roundballers completed one of the most successful seasons in Adams history, winning the first South Bend city tournament and then going on to a victory in the sectional.

Seniors Kent Ross, Phil Williford, Bob Storm, and John Kaiser were consistent starters for this squad, which finished with an 18—6 record. Two of those losses came at the hands of defending state champion Michigan City, the second being a heart-breaking 60—59 loss at the Elkhart Regional. It took three close victories in the sectional to bring home the first tournament championship since 1958, but the 70—58 victory over Riley turned the trick. It also took three victories in the first South Bend Holiday Tourney to capture that crown. Perhaps the best aspect of the season was three consecutive victories over South Bend Central.

Phil Williford, the 6' 7" forward, was the team's high scorer and was second in rebounding. Third year man Kent Ross, who was named on the regional all-star squad, was second in team scoring and the top rebounder. Larry Wharton, Bob Storm, Tom Taylor, and John Kaiser round out the senior contingent of this championship team.

Next year looks bright, the prospects lead by returning starter John Williams and sophomore forward Richard Davis. Other returning varsity members are Mark Beaudway, Mike Downey, Stanton Neal, and Terry Schapper. Coach Barnbrook's two year career record now stands at thirty-one victories, thirteen losses.

Coach Dave Hadaway Beagles also had a "bounding" year with a 15—5 record, which includes a holiday tournament victory.

Undefeated Seagles Again Take

The Adams swimming team in 1967 became the only Eagle athletic team to win two consecutive state championships. Led by co-captains Paul Goetz and Richard Rosenstein, the Seagles swept through an undefeated dual meet season, and proceded to win the city, conference, sectional and state championships on successive weekends. The highlight of the dual meet competition was a resounding victory over Columbus, who previously had won 114 dual meets without loss. The state meet at Royer Pool in Bloomington saw the defending state champions win by an unprecedented margin. The freestyle relay, composed of Joe Hauflaire, Tom Schrager, Jerry Decker, and Scott Madison, took first and established a new record for the four-hundred yard event. Our sole individual winner was senior Gary Gibboney who won the diving competition and an All-American rating.

Other state meet standouts were the Fitzgerald brothers, Mike and Bill. Bill, a sophomore, was third in the 400-yard free and fourth in the 200-yard free. Mike captured two second places, one in the butterfly and the other in the individual medley, an event which he holds the state record. Jim Herreman, a junior, placed third in the breast-stroke and broke the school record for that event. Richard Altman finished in a tie for second place in diving, and Frank Fahey took a fifth in butterfly. Fahey was also a member of the fourth-place medley relay team, which also included Paul Goetz, Richard Rosenstein, and Tom Schrager. Jeff Clark, this year's only lettering freshman, placed fifth in both the 200 and 400-yard freestyle events.

On Wednesday March 22nd the winter sports award assembly was held. Jerry Decker and Jim Herreman were named as team captains for the 1967-1968 season; Mike Fitzgerald was awarded the Monogram Club most valuable player trophy; the Kiwanis Club award was given to Paul Goetz.

Russell Wins State, Walls Runnerup

Seniors Horace Russell and Tommie Walls led the 1966 state wrestling champs to another successful year. Although falling short of last year's over-all performance, the grapplers captured a second consecutive regional championship, and compiled a respectable 7—3—1 regular season record.

Five Eagles won sectional matches—sophomore Phil Reed, and seniors Russell, Walls, Herman Humes, and Jerry Little. Little made it to the finals in the regional, but Russell and Walls won and advanced to the state finals at Southport. Russell won his 122 lb. class, remaining undefeated for the year and becoming the third consecutive Adams wrestler to win a state title. Walls, who was previously unbeaten this season, was decisioned in the championship match and thereby forced to take the runnerup spot. In points, they fell four short of taking a second straight team title, finishing fourth in the state.

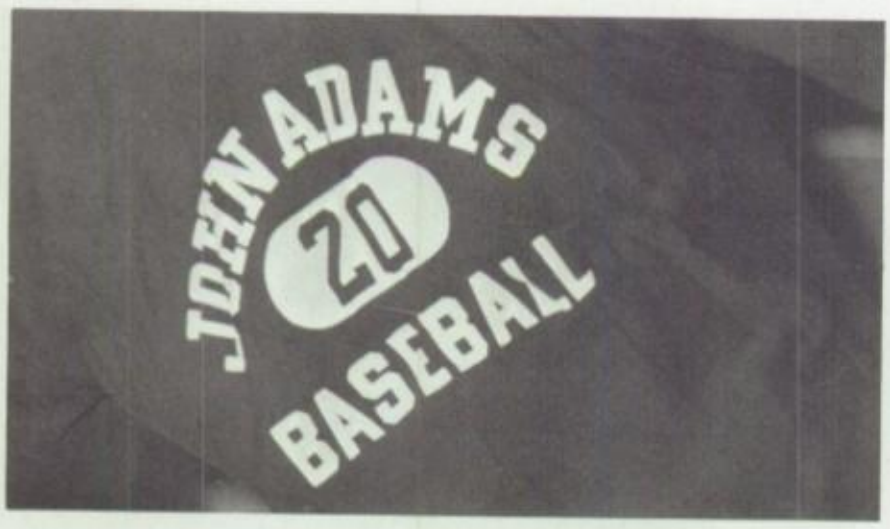
Spearhead Successful Baseball Year

Ron Gorny with his eye off the ball.



John Kaiser's number.

Coach Lenny Buczkowski began his second year as head baseball man, and looked forward to a very successful year. The I.H.S.A.A. voted last fall to establish a state baseball tournament, similar in all respects to the state basketball tournament. South Bend is the site of our area sectional, Elkhart the regional, et cetera.

There were eight returning lettermen—Gary Gibboney, Doug MacGregor, John Kaiser, Rick Sayers, Mickey Spainhower, Larry Wharton, Perry Perciful, and Bob Storm. Storm and MacGregor were the probable pitchers this year, and got mound support from junior Greg Pawlowski. Catching duties fell into the hands of senior Ron Gorny and perhaps sophomore Rick Sayers. Another junior, Ed Szucs, started at first base.

The team faced its usual grueling schedule, facing each city team twice, then proceeding to the sectional. It required, as it did in basketball, three victories to capture the first South Bend sectional championship. Warsaw, Michigan City, and Elkhart feed into the Elkhart regional.

George Griffith faced his first year as the B-team baseball coach. He guided a team mostly consisting of freshmen and sophomores. The Beagles played a schedule similar to that of the varsity.

1967 TRACK TEAM

on to Victorious Season

THE FIELD MEN: **ROW 1:** T. Taylor, L. Preston, J. Jackey. **ROW 2:** T. Kruyer, P. Shapiro, S. Campbell, T. Colip.

THE DISTANCE MEN: **ROW 1:** C. Jones, J. Driver, H. Lanier, E. McNulty. **ROW 2:** P. Hamilton, P. Hartwick, B. Manuszak, K. Walters, P. Thompson.

The 1967 varsity track squad, loaded with talent and experience, faces the year under first year coach Neil McLaughlin. Practice started late February, and all efforts are directed at the state championships in Indianapolis on the Memorial Day weekend.

Two returning seniors, Scott Cambell and John Jackey, highlighted last season's performance as they qualified to compete in those state finals. Cambell is one of Indiana's finest shot putters, and holds the school record for that event. Jackey qualified in the pole vault.

Other returning lettermen include shot putter Tom Colip; hurdlers Tommie Walls, Shot Williams, and John Daugherty; distance men Cubie Jones, Jack Driver, Kevin Walters, Pat Hartwick, Phil Hamilton, and Hardy Lanier; sprinters Ronnie Collins, Kenny Butts, and George Wilkins. Others that have not lettered but will play big roles with the team this season are Paul Shapiro, shot putt; Bill Manuszak and Bob Dylan, distance; and John Jacobs in the hurdles.

The entire squad, both varsity and B-team, will be over one hundred strong. Coach McLaughlin will be assisted by first year man Danny Poe.

Highlights of the season besides the state meet include the Goshen Relays in late April, the Indoor Meet at Notre Dame Field House in late March.

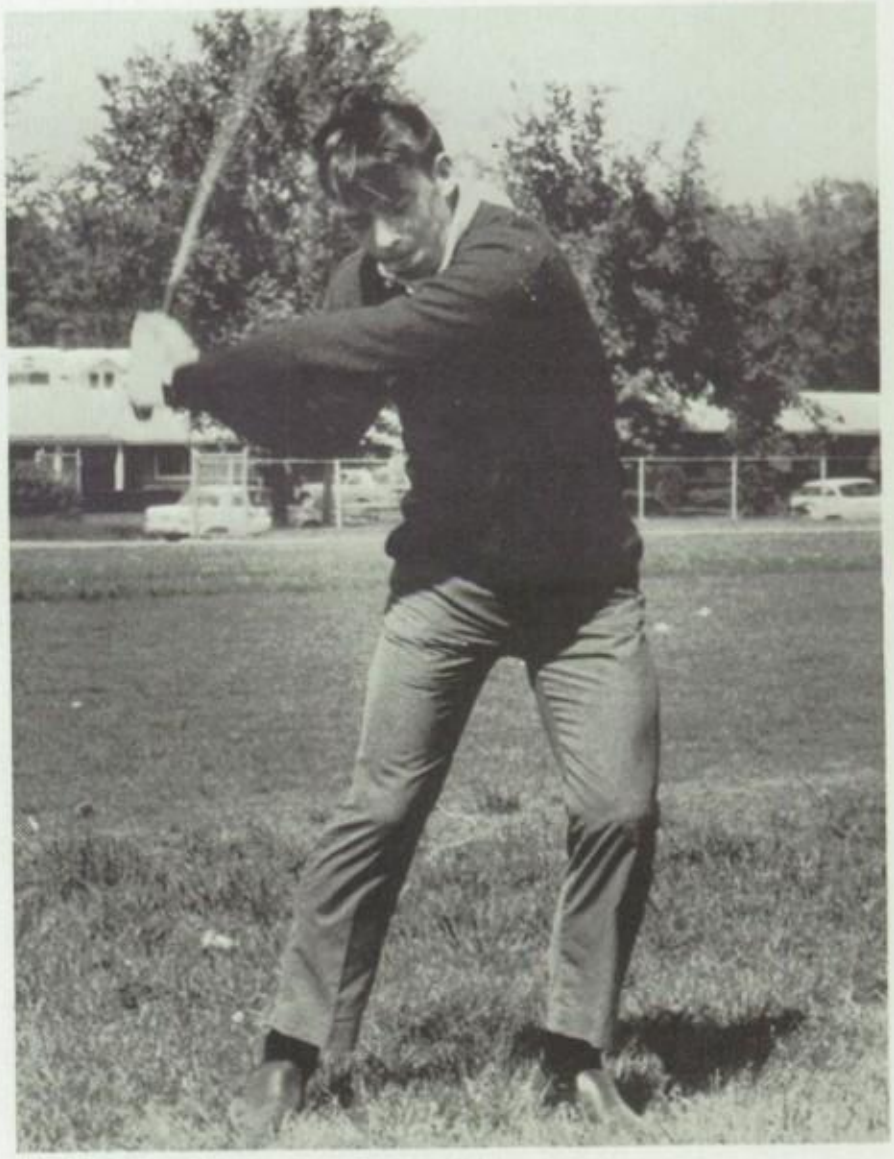
Fore!

Three returning varsity golfers make the season's prospects for a conference championship look bright. Captain Les Mauson and sophomore Mark Williams, the two lettermen on the squad, and senior Lee Van Buskirk paced the fifteen match schedule. Many matches involve three teams competing against each other in the same afternoon.

The season will be highlighted by the Sectional in late May. Those who qualify from there will go on to the state championships in Indianapolis. Also in late May is the Kaeppler Memorial Tourney, which honors the late Ernest Kaeppler, Adams golf and tennis coach until his death in 1964.

Others who competed for first string positions are Terry Tulchinsky, Scott Andrick, and Mike Seitz. This is the third varsity season for coach Veryl Stamm, who is also an assistant football coach.



Captain Les Mauson swings with determination.

work a 60-hour week for 25 cents an hour?

That was the going rate at the turn of the century when almost all work was done by hand. Youth began their working careers at 14, there was no such thing as retirement and living standards were very low.

Today, the average U.S. worker has tripled his production and buying power and has cut his work week by one-third.

What changed all this? Machines, automation and modern production and business methods.

Automation creates more jobs than it destroys. It's the free enterprise way and has given us the highest standard of living in the world and the greatest degree of individual freedom.

At I&M automated methods have enabled us to provide many more new jobs, improve our methods of generating and delivering electricity and provide our customers with improved, low-cost electric service in the bargain.

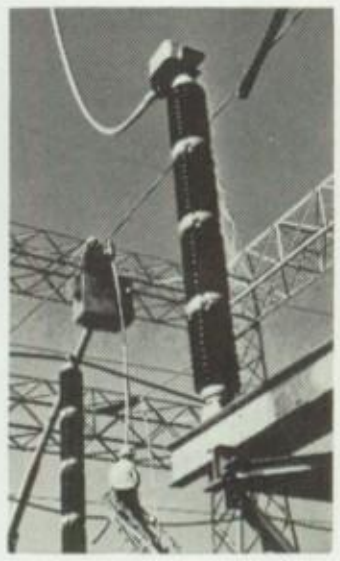
FOR MEN

AN OPPORTUNITY TO SERVE

An opportunity to serve awaits industrious young men and women at Northern Indiana Public Service Company. As one of the top gas and electric distribution utilities in the United States, NIPSCO is constantly looking for new processes and methods of efficient operation. These include atomic power generation, extra high voltage transmission, underground electric distribution, computerized system planning, underground storage of natural gas, community analyses and electronic data processing.



Ready to grow with a growing company?

IN AN ATMOSPHERE OF GROWTH

NIPSCO is one of the highest-paying utilities in the State of Indiana. Its attractive employe benefit package—tuition refund plan, vacations, holidays, life insurance, comprehensive medical insurance, pensions, etc.—provides an atmosphere for individual growth. Fifteen leading colleges and universities are strategically located throughout its service area with others available in the greater Chicago area. Drop in. We'll be glad to talk jobs with you.

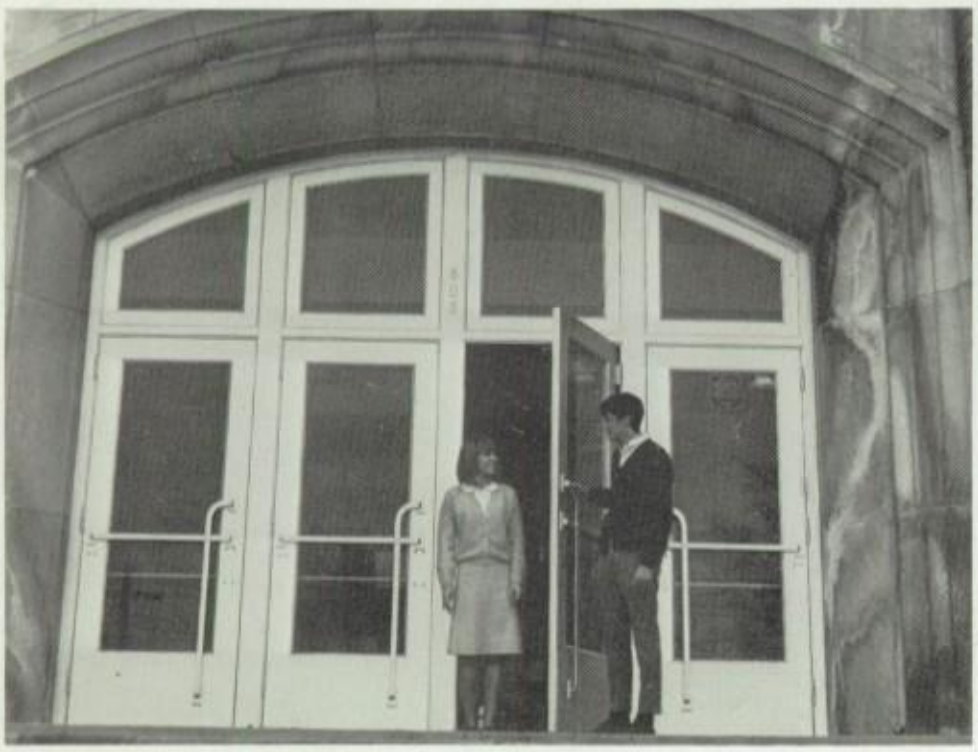
Though behind us these doors have closed . . . they have

Opened wide the Opportunities ahead.

And so we leave to meet the challenges, the pleasures, of

Tomorrow.



Jodi
Is a real art
friend. Remember
Miss Seeley and
the flowers!
Good Luck
with everything

Jode,
To a girl that
I'll always remember
Especially the talks
everyday in gym class.
I hope we have it together
next year. Please stay the
same, always.
Kisses you are
I like you
